LaunchPad

Bank in a Box

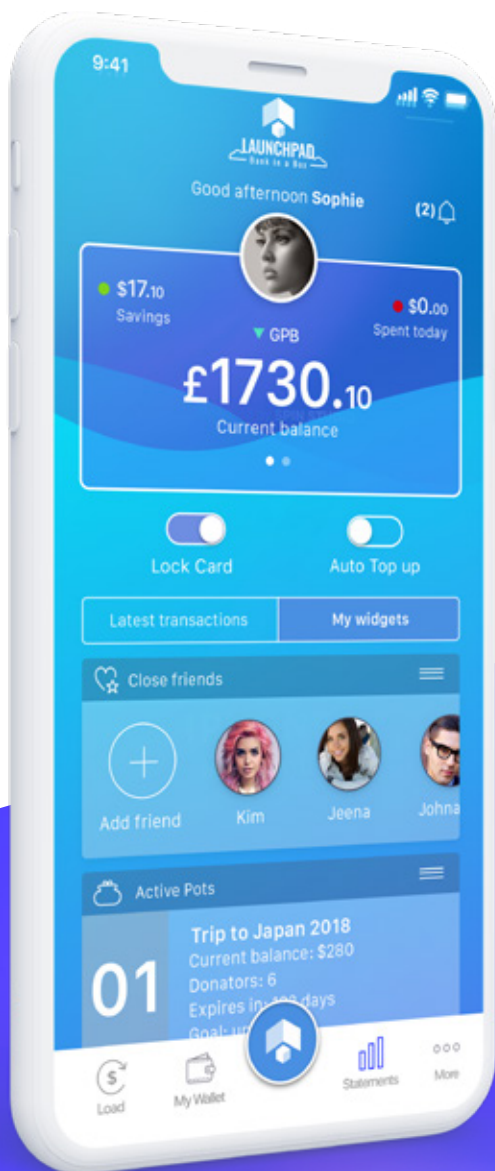

Quickly and cost effectively turnkey solution

Innovative approach

Optimized prepaid card experience

The concept of LaunchPad is to provide a bank “in-a-box” product for a wide variety of issuers.

Fast delivery

Multi platform

LaunchPad is Pannovate’s latest offering and highlights our ability to answer market demand with a turn-key solution for customers looking to go to market quickly and cost effectively.

This omnichannel, out-of-the- box digital banking solution provides an optimized card experience for businesses looking to grow their digital services. It offers a rich digital banking platform delivered on any device – from online to smartphones and tablets – with the ability to shape the customer experience on these devices enabling businesses to differentiate their brand.

An innovative solution that is launch ready in 10 weeks or less, that is flexible and customisable to meet most needs.

Launch Your Digital Banking Strategy with LaunchPad

Banking is Mobile.

Mobile banking apps have moved beyond a tick box exercise. Mobile Banking App functionality is becoming a key differentiator to compete in this increasingly fast paced digital environment.

Consumers are not demanding anymore, actively are moving to operators that have the banking facilities they want now. New entrants have raised the bar and incumbents are struggling to keep up.

Innovation, frequent updates that are tuned into consumer demands, new features and functionality released quickly and regularly are the norm now.

Launchpad is market ready, with the digital only infrastructure that can launch new entrants into a significant competitive position with our "Bank in a Box" offering. Launchpad answers all the question posed by todays digital banking consumers with the scope to keep pace in this ever changing, fast paced sector.

Consumer demand is there.

Best in Class

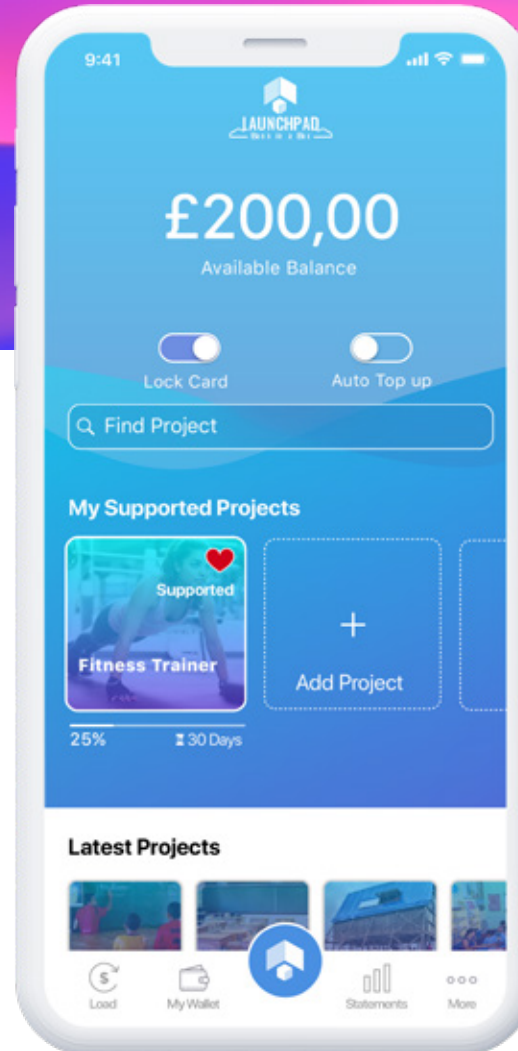

By including back-office management features, comprehensive customer support, marketing services, technical support and more with our solutions, we are able to help institutions compete even more successfully in today's fast-changing financial environment.

Business Insider announced over the last five years, consumer use of banking apps increased 356%

Money Supermarket showed that over half of Brits consider digital services when opening an account and this rises to 71% for millennials

App ratings which is understood to be the key benchmark by consumers. The average rating across both operating systems is higher for non-traditional players by 0.5 stars.

This signals a change in customer behavior – customers are most happy engaging via their smartphone and prefer not to phone customer service centres.

Low Risk

As a proven and reliable global leader in financial services technology, we're the right partner to provide the right digital banking and payments solution to meet the specific needs of your organisation and your customers.

Launchpad can offer all the user functionality demanded now by consumers with our "Bank in a box solution".

Benefits

- ✓ **One solution for all electronic banking needs delivered via four distinct channels – desktop browsers, smartphones, tablets and mobile browsers – operating on a common digital platform**
- ✓ **Lower total cost of ownership by using existing technology investments: built on a Java platform, runs on Windows, Unix, iSeries and is database-agnostic**
- ✓ **Rich out-of-the-box functionality for both consumer and 3rd party needs; highly configurable to lower deployment time to market**
- ✓ **Maximum adoption potential—Runs on a wide range of devices**
- ✓ **Rich user experience—Intuitive user interface and native design applications that customers demand from their digital relationships**
- ✓ **Industry-standard security layers to ensure data protection & GDPR compliant**

- ✓ **Faster releases and short development time means regular product releases to keep the solution more accurately aligned with changing market needs.**
- ✓ **Operational efficiency—A single partner relationship for all channels offers operational efficiency and ensures continuity.**

The key advantage to Launchpad is its digital first infrastructure. A more agile development cycle with frequent releases of new and improved functionality is the new standard in mobile banking apps, which Launchpad delivers effectively with close collaboration with its clients and partners. The symbiotic relationships integrate consumer demand into the development cycle so that Launchpad can anticipate functionality changes.

The speed of development release can be seen in non-traditional players who average 47 days in 2016 and 22 days in 2018 (Q1) Launchpad development is in house meaning that speed, flexibility and consumer orientation are part of the fabric of this banking solution.

Key Features

Launchpad is the digital banking solution that is readily deployable with the agility required in today's digital world. Launchpad is designed to keep you in touch with features such as:

ALERT NOTIFICATIONS

Set alerts to enable easier monitoring, control and optimisation. Set benchmarks for performance, kpis and manage effectiveness easy and efficiently. Consumers can set savings goals, spend limits and account sweeping to personalize their accounts. Just some of the financial management tools available with Launchpad.
